Sweeper TLC

The ultimate guide to maintaining your sweeper

What You'll Do

To keep your sweeping machine performing its best, it should be frequently maintained by the operators. It's very quick & easy!

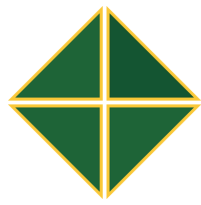

What We'll Do

With a servicing package, our engineers will routinely fix any wear and tear to prevent the machine from breaking down later on.

Ride-Ons Differ

Bigger ride-on machines often carry engines which need similar maintenance to cars. The checklist below breaks it down for you.

(Generic)

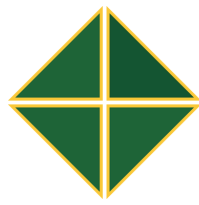

Date:/...../.....

Sweeper Daily Maintenance Checklist

Task	Completed
Use filter shaker	
Empty waste bin	
Remove debris from bristles	
Check battery levels (N/A)	

Completed by (operator name):
